About This Game

Introduction

The day started like any other.... But then, just as you were enjoying a walk with your sister, she was kidnapped by evil space robots! You could have been taken as well but you were lucky and escaped. ...But what of your sister? Can you save her from these monsters - or will you die trying? If you're brave enough then you will have to negotiate a series of challenging physics based puzzles in a world of traps and monsters....

What Else?

Welcome to the darker reaches of my imagination. Umбра: Shadow of Death has seven large levels of puzzles for you to conquer. On your journey you will encounter.... Ah, heck, why should I tell you what will happen? You'll be confronted by puzzles, traps, monsters and robots! You'll also get to drive a high-performance truck and shoot a mini-gun....! If you're not sure - try the Demo...

Umbra is a 2d physics platformer that will take up a couple of hours of your time... If your hardware has less than 1Gb of video memory and you don't have DirectX support then the game may not run smoothly. The game is designed to be played using an Xbox360 controller; keyboard/mouse control is supported - but the game may not feel as good to play (using a laptop trackpad is not recommended). Steam Achievements are supported, so you can share your intellectual and hand/eye coordination superiority with your friends. The game may not run smoothly or in full screen on older / min spec hardware.

umbra shadow of death

Beautiful color puzzle game with nice art style. It takes you about 20 minutes to get used to the logic of the game, but once you have it, it's really fun deciphering the level. I enjoy playing it with my girlfriend on the sofa. When my brain is weak her's it's strong.

. Why I can not find Hurk?????. I CANT RESTAR MY SAVE GAME ITS ONLY ONE TIME PLAY????

I JUST SPEND MY MONEY FOR NOTHING. The game is great. I started playing magic long time ago and now I'm back enjoying it. The only problem is that for new players now you can't get enough coins for buying card boosters from old expansions and create nice decks is really hard.

I payed like 100\u20ac or so but still not close to get 50% of current cards.

Why old boosters don't get a discount? It's a pain. Sucks, works bad, lags etc.. Terrible game.. It's pretty dank

This game is amazing, it's long and each route has a completely different story and there are a massive amount of endings. The artwork is beautiful and the voices are amazing. Each character really has a lot of development and the story has a lot of ups and downs and never gets boring. 10/10. This game has some of the most ingenious mechanical and puzzle design you will ever see. It somehow manages to have metroidlike progression, where you see treasures and routes you can't take yet, but will on later visits, despite having no unlockable player abilities. It achieves this unprecedented feat by teaching you new and non-obvious mechanics as you progress through the various stages, which you can then use to solve other challenges you passed earlier. This teaching happens organically as you solve puzzles; there is no text or spoken dialogue in the game.

Toki Tori 2 is an under-appreciated gem and one of the best puzzle games ever made. 10/10. I was hoping this too be as grate as the oridiginal. and its such a good feeling too actually say yes its as good as the oridiginal. just a shame they never used the OST from the first game. The only let down i can think off is the voice acting is pants.. got this on sale, but I love it so much! Totally worth getting!

fun and definitely replayable

9/10 because some of the enemies are cute and i felt bad fighting them. Great game!! Best game Ive actually played in a while. I reccomend for them nintendo lovers out there. I got to try the game out on newgrounds first, loved it... so i decided to buy it.. What just happened. Yep, it's very raw and unplayable product. Maybe for a flash game it would get away with it, but you have to pay for this piece. Don't be fooled by all this nostalgic garbage, don't buy it.. everyone I love is dead and I can't stop crying. What you're promised: 'you'll use your elite military training and advanced weapons to take the rebels down!' What you actually get: 'you'll use no military knowledge, an unsilenced sniper, deagle and a machete to take the rebels down!'
